Experience You Can Trust

We're a proud family-owned and operated Australian business built on a foundation of **value, quality, and trust**. With over 150 years of combined industry experience, our team brings unrivalled expertise, genuine passion, and deep product knowledge to every project.

We understand that purchasing a shed, no matter the size is a significant investment. That's why we're committed to delivering **exceptional value without compromise**. By streamlining our operations and cutting out unnecessary overheads, we're able to offer **market-leading prices** while maintaining the highest standards in materials and workmanship.

Our approach is simple: **treat every customer like family**. From your first enquiry to the final installation, we focus on **exceptional customer service**, transparent communication, and delivering results that exceed expectations.

When you choose Best Sheds, you're choosing a team you can **trust**, a team that listens, advises, and delivers exactly what you need.

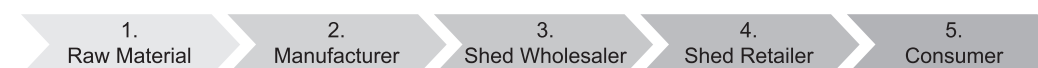

Best Sheds Are Up To 40% Cheaper - Here's How We Do It

We understand how important it is to invest wisely - especially when it comes to your home, your family or your business. That's why we've built a business that puts you first, cutting unnecessary costs so you get real savings without ever compromising on quality or care.

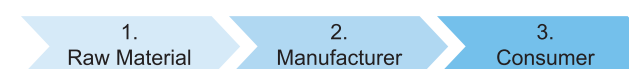

Our sheds are manufactured right here in Australia, NSW, Port Kembla. No middlemen, no hidden fees - just honest pricing, durable materials, and the peace of mind that comes with a 20-year Manufacturer's Warranty.

Because at the end of the day, your shed isn't just a building - it's part of your life.

The traditional shed supply chain in Australia:

Best Sheds supply chain:

- ✓ **Australian Made** - Manufactured locally in Port Kembla
- ✓ **No Outsourcing or Middlemen** - Buy direct from the source
- ✓ **Flexible Supplier Deals** - No locked-in contracts = better pricing
- ✓ **Independent Ownership** - We negotiate for you, not a supplier
- ✓ **Efficient Colour Range** - Popular choices, less waste
- ✓ **Upgraded Structural Steel** - From 1.2mm to 1.5mm
- ✓ **Stronger Wall Sheeting** - From 0.35mm BMT to 0.42mm BMT
- ✓ **20YR Manufacturer's Warranty** - a true sign of confidence in our quality

Why Australians Trust Best Sheds

Real feedback from real customers - because what we sell is more than just a shed kit. It's a space to grow, work, and protect what matters.

Dawn T.

Very happy with Best Sheds and the service we received. There were many approvals we needed to get, such as council, surveyor, and construction certificates. The team who installed the shed was very professional and did an amazing job.

Dianne S.

We designed our backyard shed using the easy to use and well explained designer tool on the Best Sheds website. The quote for our design came quickly, and we found the company polite, very helpful, and communicative, keeping us informed every step of the way. Our builder was impressed with the quality and sturdiness of the materials. We felt every detail was taken care of for both the purchaser and the builder. It is a good, solid shed. We would definitely recommend Best Sheds.

Marcel W.

Great service at a great price! The team was very helpful, easy to contact, and happy to assist each time I had a design change idea. They kept me up to date with any specials Best Sheds was running to help me get the best shed at the best price. Their preferred installer did a great job installing the shed and was very knowledgeable about the product, making the whole process really easy!

Sam W.

Very happy with the single garage. The quality is great, and the delivery time was very fast. The team was super helpful, answered all my questions, and revised the quote several times without any hassle. They always got back to me straight away. Overall, it was a pain-free experience for me.

Shana P.

We had the pleasure of dealing with Best Sheds from the beginning of planning our shed to receiving the final product. We couldn't be happier with the friendly service and prompt responses we received via email and phone. Would highly recommend Best Sheds to anyone.

Find the Right Shed for Your Needs

From single garages to mini industrials and everything in between, we offer a versatile range of shed solutions designed to suit your property, lifestyle, and budget.

Whether you're storing vehicles, securing equipment, building a home workspace, or expanding for future needs - we'll help you find a shed that fits.

Our shed range include:

- Single, Double & Triple Garages
- American Barns
- Open Bay Farm Sheds
- Mini Industrial Shed
- Workshops
- Skillion Roof Garages
- Gable & Flat Roof Carports
- Arenas
- Garden Sheds

Each shed is customisable – choose your size, layout, roof style, doors, and access points to create a solution that's built for purpose and built to last.

Not sure where to start?

Our experienced team is here to guide you.

Garages - Single, Double, Triple

From your first car to your growing family fleet or that dream weekend project, our garages are designed with everyday life in mind. Choose a single, double, or triple bay design and shape a space that protects what matters and gives you room to grow.

- **Single Garages** - Ideal for compact blocks, tools, or personal projects
- **Double Garages** - Room for two vehicles, plus extra storage or workspace
- **Triple Garages** - Built for families, collectors, or full-sized workshops

Tailor your garage to suit your life - with a choice of roof styles, roller and access doors, layout options, and more. Starting at 3.6m wide, each design can be adjusted in width, length and height to suit your space and plans.

Open Bay Farm Sheds

Off White walls. Monolith gutters

From sheltering tractors and machinery to creating a covered workspace or tacking area, our open bay sheds are designed with practicality and rural durability in mind.

Starting at 7.5m wide, these structures offer generous access and flexible configurations - ideal for farms, stations, and equestrian use.

Engineered to perform, every shed is rated as a minimum Importance Level 2 as standard. We don't downgrade for farm use - because your gear, animals, and livelihood matter most.

Mini Industrial Sheds

When your operations outgrow standard sheds, our mini industrial range steps up. Designed for expanding storage needs, larger projects, or light commercial use, these sheds offer serious space with structural integrity to match.

Engineered for strength and durability, each shed is built to withstand Australia's toughest conditions - making them a reliable investment for growing businesses.

Skillion Roof - Single, Double Garages

Monolith walls, gutters. Slate Grey roller doors.

Looking for a sleek, modern garage that doesn't compromise on quality or value? Our skillion roof garages are a stylish and cost effective solution - perfect for car storage, general use, or maximising space on narrow urban blocks.

Built with thick steel framing and 0.42 BMT cladding, they deliver durability, clean architectural lines, and a high clearance design ideal for both personal and light commercial use.

Take a look at our range - we offer both single and double skillion roof garages to suit your needs.

Slate Grey walls, gutters

Whether you're operating on a rural property or managing a light industrial site, our Skillion Roof Sheds deliver the perfect balance of strength, space, and modern design.

For rural applications, the Open Bay or Mini Industrial provides wide, unobstructed access ideal for storing machinery, hay, or equipment - backed by durable steel framing and high-clearance design to handle even the toughest conditions.

Need a compact solution for light commercial use? Our Mini Industrial Sheds are built tough for workshops, small business operations, or secure storage. With a sleek skillion roof and heavy duty cladding, they're built for performance in tight urban or industrial spaces.

- Key Benefits:**
- Easy drive-in, drive-out access
 - Durable steel frame with 0.42 BMT cladding
 - Flexible configurations to suit rural or industrial needs
 - Engineered to handle harsh Australian conditions

Looking for a custom shed or garage?

At Best Sheds, we believe your shed should work for you - not the other way around. That's why our range includes fully customisable options, giving you the freedom to design a space that suits your exact needs.

Whether it's a secure home for your car, a dedicated workshop, extra farm storage, or even a new office, our sheds can be tailored with features like side roller doors, lean-to add-ons, and more to create the perfect fit for your property and lifestyle.

Smooth Cream walls, Slate Grey gutters, roller doors.

Workshops - Side Roller Door Kits

If you've got the space, a workshop shed is a smart, long term investment for both residential and industrial use. These versatile sheds are spacious enough for hands on projects, secure tools and equipment storage, and even the occasional moment to put your feet up and solve the mysteries of life or at least argue over last weekend's footy match.

Designed for practicality and ease of access, our Side Roller Door Kits make it simple to move large items in and out, improve ventilation, and make your workspace more functional.

Lean-To Add On / Garaports

Need extra space without the cost of a full extension? A Lean-to or Garaport is a simple, affordable way to boost your shed's functionality - perfect for extra storage, shaded areas, or undercover parking.

Our Lean-to and Garaport kits come complete with all the hardware you need for easy installation, and they're designed to integrate seamlessly with your existing structure.

- Ideal for:**
- Extending storage or work areas
 - Creating shaded outdoor space
 - Adding covered parking for vehicles or equipment

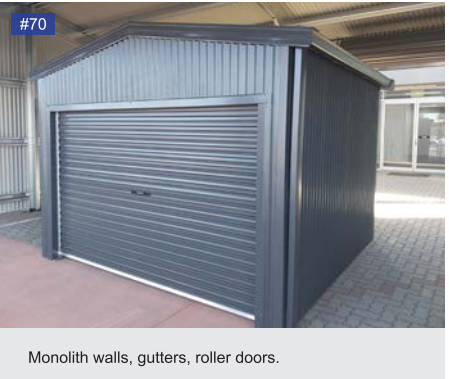

Premium Garden Sheds

Designed for more than just storage, our Premium Garden Sheds offer durability, practicality, and smart features that make them a standout option for any backyard.

Features include:

- Full Internal Frame**
Unlike many lightweight sheds that rely on the sheeting for structure, ours include internal columns and rafters - perfect for mounting benches, hanging tools, or storing bikes, brooms, and garden gear.
- Anchor Bolts**
Fully secures your shed to the foundation for long-term strength and stability.
- Gutters & Downpipes**
Ideal for harvesting rainwater or managing drainage, helping keep your shed and its surroundings cleaner and drier.
- Corner Flashings**
Helps seal the edges, protecting against leaks and improving overall weather resistance.
- Roller Door Access**
Easily store larger items like ride-on mowers, motorbikes, kayaks, surfboards - even a small tinny. The roller door can also be fully automated for added convenience.
- Extended Side Wall Sheeting**
Our side wall sheets extend below the slab edge, preventing build-up of dirt, debris, and fire hazards - no exposed base channel to collect grime.

Windows, PA Doors and Insulation all available as optional extras.
* All Measurements, sizes and openings can be customised to your exact needs.

Accessories Available

A great shed starts with a strong foundation - but the right accessories can make it truly exceptional. Whether you're after more functionality, improved weather protection, or a more polished look, we offer a range of must have add-ons to customise your shed to suit your needs.

These accessories are designed to boost performance, extend durability, and improve day to day convenience that can be added to your kit to complete your shed and get the most out of your investment.

Sliding Windows (\$330 - 900h x 1430w)

Windows are a great addition to any shed for natural light and extra ventilation.

Lean-to add on

Adding a lean-to to your shed can be a cost-effective way to increase storage, shade or parking space.

Insulation (\$290 - Covers 26sq Metres)

If you plan on spending a great deal of time in your shed, you may want to consider insulation. It is a cost effective and practical way to keep your shed warmer in winter and cooler in summer.

PA Door (\$390 - 2040h x 820w)

Adding a personal access door will make it easier to enter your shed without the need to open a large roller door.

Roller Door Operator (\$450 - Domestic, \$790 - Industrial)

Adding a roller door operator will allow you to access your shed from the comfort of your vehicle.

Glass Sliding Door (\$1190 - 2100h x 1810w)

Glass sliding doors are a great way to add natural light and easy access to your shed. Available in smooth cream and slate grey.

Barn Window (\$390)

If you're after an extra touch of style you may want to consider a barn window. Available in cream only

Why We Ask For Your Address?

Your site location plays a key role in how your shed is designed. Wind conditions vary depending on your surroundings such as trees, open land, nearby buildings, or water and these factors affect the wind classification of your property.

We ask for your address so we can design site specific engineering, which allows us to optimise your shed design for strength, compliance, and cost efficiency, in line with Australian building code NCC 2022.

Our Simple 3 Step Shed Buying Process

1. Get a quote

Reach out to us with your shed requirements - size, style, and any custom features. We'll provide you with a detailed, obligation free quote.

2. Pay for your shed

Once you're happy with the quote, we will send you a copy of your contract for signature and then start manufacturing your shed.

3. Delivery

We'll arrange prompt delivery of your shed to your site, ready for installation by you or your chosen builder.

Design Your Own Shed Online

Can't find the exact shed you're looking for? With today's technology, you don't have to settle. Our online shed builder makes it easy to create a shed that suits your exact needs - no engineering experience required.

Using a simple 3D design tool, you can customise features like internal walls, doors, windows, ventilation, and more. It's fast, flexible, and lets you visualise your shed in real time.

You're in control. Choose the layout, materials, and extras that work for you, all while staying within budget.

Visit www.bestsheds.com.au to get started.

Category 1

Flat, open spaces with few or no obstructions - like treeless plains, open fields, rivers, or water surfaces.

Wind Direction

Category 2

Open areas like grassland with scattered features (1.5m - 5m tall), such as a few trees or small buildings, with limited obstruction - usually no more than two per hectare.

Wind Direction

Category 2.5

Lightly developed areas, like outer suburbs or rural blocks, where houses or trees are spaced out but still noticeable.

Wind Direction

Category 3

Densely developed areas with many obstructions, typically 3m - 10m high - such as typical suburban neighborhoods with closely spaced houses and trees.
